SPEL View Observation Cover

The SPELView Observation Cover is the perfect addition for your Outreach or Educational projects. Constructed of aluminum reinforced fiberglass panels, the SPELView Observation Cover is built to last.

Available in custom colors it is sure to blend into the surrounding landscape yet draw the attention it deserves. When compared to other viewing products on the market, the SPELView Observation Cover is the "clear choice". Educational signage is included with every SPELView Observation Cover illustrating to the public how the treatment system works and the benefits the Pollutant Separating Baffle Box provides.
